CMEP PLAN ▶

Ursel Kedars, Estonian Rescue Board, draws up a disaster scenario for a Civilian Military Emergency Preparedness workshop in April. Corps employees, the USDA Forest Service, Partnership for Peace Information Systems, and rescue personnel from the Baltic States and Finland, met to discuss how to save lives collectively in a disaster.

◀ SAFETY FIRST

David Stanton, safety officer, Europe District, walks the contractor and other district employees through a safety inspection at a barracks project in Belgium. Stanton found a safety violation in a temporary electrical system and explained what needed to be fixed. See page 8 for more on safety.

ON THE LEVEL ▶

Michael Tibbs, office engineer, Northern Resident Office, inspects the shower room floors in one of the barracks at the Northern Infantry Training Base near Tel Aviv, Israel. The base was opened in May and Tibbs and crew were making preparations for the arrival of the Golani Brigade Soldiers. Here he checks to ensure the slope is in agreement with the specifications for proper water drainage. See page 4 for more on the district's quality assurance program.
